EDUCATION

University of Toronto, Honours Bachelor of Science

September 2018 - April 2022

- Completing a double major in Computer Science and Communication Information Technology

EXPERIENCE

Founder and Developer

Cayendo -- August 2019 to Present

- A software development company building online and offline solutions for dance registration and adjudication
- Led the creation and maintenance of a React application responsible for registration of 4000+ dancers and routines, music uploading, and competition invoicing
- Negotiated key initial contracts with dance competition directors to formalize structure and support growth

Information Technology Coordinator

The Ultimate Dance Connection -- April 2018 to May 2019

- Created a python script responsible for recording and automated organization of video adjudications using the FFmpeg open-source library
- Created an offline website and implemented FTP servers to improve workflow of photographers and videographers

Communications Design Intern

Xerox Research Centre of Canada -- July 2018 to September 2018

- Designed the front-end for an internal web application by following Xerox brand guidelines and communicating interaction flows to developers
- Worked closely with developers on new database design to encompass business and functionality requirements
